HEY YOU!

If you are interested in entering the **World of International Trade** or are already involved as a business owner, manufacturer or an employee, we have a course that **will be invaluable** for you.

Customs Services boasts more than 35 years' experience in the clearing and forwarding industry and are pleased to announce that we have launched our **on-line course** Understanding the Incoterms 2010 Rules.

Incoterms 2010 are published trade terms that clearly communicate which party is responsible for which part of an International sales transaction, where risk for loss of or damage to the goods passes and who is liable for the various costs incurred throughout the movement of the goods from seller to buyer. **This course ensures that you gain a solid grasp of these trade terms and will equip you with the knowledge to be able to enter into a sales contract safely.**

What you will learn:

- The **History** and Origin of Incoterms
- The **Impact** of Incoterms
- The **Legality** of Incoterms
- The **costs, risks and responsibilities** of Buyers and Sellers as defined by the 11 Incoterms
- How to make **recommendations**
- Methods of **payment**
- **Record keeping** and types of documents

The course is a **6 week course** during which you will have access to **qualified mentors** for assistance so you are never alone.

The cost of the course is **R3910.00** incl VAT.

Sign up today and start your exciting journey with us!

• Zimbabwe • Botswana • Zambia • Malawi • Mozambique • Namibia

Customs Tariffs and Duty Refunds

We assist you to:

- Obtain written tariff determinations.
- Confirm the tariffs currently used by your organization are indeed correct.
- Recover over payments of customs duties.
- Importers and Exporters generally do not have the required technical knowledge of the customs tariff to classify their goods correctly,
- Resulting in either overpayment of duties or underpayments of duties.

An incorrect tariff classification of a product may have serious financial implications for the manufacturer, importer or exporter.
